However, shall be eligible for re-admission after rendering National Service even in the middle of an academic year with out payment of any arrears.

It has been noticed that this regulation is not being observed by Principals of some of the colleges. To ensure that this is complied with very strictly in future, it is urged that the “Admission Forms” prescribed by the colleges must contain a declaration from every applicant that he/she had not studied in the same class earlier either in the same college or any other college affiliated to this University with the same combination which he/she is offering now or with a different combination. It should also be made clear to every student that suppression of this fact will result in cancellation of his re-admission as well as disqualification from appearing at the examination either for a specified period or for good.

A failed candidate is allowed to change a subject of failure but he/she has to attend classes in the changed subject only as a “Casual Student” and not as a “Regular Student”. Also a failed candidate should not be allowed to offer a subject which is not taught in the college of which he had been a student previously. He can re-appear at the examination only as an ex-student of the same college.

- m) Persons who are in employment any where on a whole-time basis shall not be enrolled in a University teaching department or an affiliated college provided that this shall not for the present apply to enrolment in Law, Commerce, Certificate Course in Languages, Post-graduate Diploma Course in Urdu Language and Literature for Foreigners, Post-graduate Diploma in Statistics and Certificate Course in General Linguistics and to enrolment of teachers of recognized institutions working in the evening shift in Arts subjects in which Laboratory work is not involved. Provided further that those working in the morning will be eligible for admission to B.A./B.Com. in the evening shift.
- n) A graduate of one Faculty shall not be permitted to join the degree course in another Faculty. This shall not, however, apply to admission in Medicine, Law, Education, Chemical/Medical Technology and Pharmacy. However, a 2nd class B.A. with Economics will be eligible to do B.Com. The admission form must, therefore, also include a declaration from every applicant whether or not he/she had already graduated in another faculty.

- o) A student may be allowed to change the faculty of study in the First Year of the Degree Course on the recommendation of the Principal of the College concerned, up-to three weeks from the date from which classes start provided that such change of faculty' may be allowed by the Vice-Chancellor in special cases up-to a further period of three weeks on payment of prescribed fee on the recommendation of the Principal concerned.

NO FOREIGN STUDENTS IS TO BE ADMITTED WITHOUT THE PRIOR PERMISSION OF THE MINISTRY OF EDUCATION, ISLAMABAD AND THE UNIVERSITY.

It is requested that the above instructions be carefully noted and strictly adhered to. Principals of the colleges are particularly requested to ensure that all admissions made are regular in all respects. In case an admission has to be rejected at the enrolment stage by the University, the University will not be responsible for any damages and the responsibility shall lie entirely with the college concerned. Principals are, therefore, requested to ensure the eligibility of each student at the time of admission.

It may be noted that Enrolment Fee of such candidates shall NOT be refunded by the University as are admitted by the college to classes for which they were not eligible at the time of admission. The enrolment of all admitted students should be got completed within six weeks of the last date of the admission to avoid any inconvenience at the time of examination.
